

Double Sided Tape  
1/2" x 12 3/4" x 1/8" thick  
2 places  
RC-HDST

### Important:

For safety reasons, the adhesive mounting tape supplied must be used when installing the stack units. This one time use adhesive tape permanently fixes the position of the stack units to prevent it from tipping over. Do not remove the tapes protective backing before deciding the final position of the stack units.

### Installation Notes:

1. Remove tape backing and stick the foam tape under each side panel of the stack unit
2. Remove the second tape backing and install the stack unit on the furniture.
3. Secure stack unit to wall using beam or toggle anchors or secure to adjacent unit.

### Stack Unit Removal Notes:

1. To remove stack unit, use a precision knife, insert the blade and cut the mounting tape lengthwise. Lift slowly.
2. To remove mounting tape from the surface, use a plastic putty knife.
3. To re-install stack unit, use new mounting tape.
