Calibrate Countdown Product Details

General Construction Details

- Worksurfaces are 1 1/8" thick, thermally fused laminate with matching edgeband. For available finishes please refer to Finishes section.
- Storage elements have 3/4" thick case construction with 1mm edge.
- Laminate drawer and door faces are 3/4" thick.
- 2mm edges available on worksurfaces. See Product Detail: Edge Profile Details for examples.
- Leveling feet are adjustable up to 1" for all floor supported components.
- Units are finished all over, including the backs.
- Shelves will match body selection
- Laminate patterns such as grain or geometric shapes do not "match" face to face. However this is not noticeable on most laminate options with the exception of natural looking woods where cathedrals appear. AIS cannot guarantee that the woodgrain will match up on the different parts of the same surface.
- AIS recommends the use of mouse pads to protect longevity and integrity of worksurfaces.

Handle Options

- Four handle options are available:
 1. Bar Pull
 2. Loop Pull
 3. Rectangular Pull
 4. L Pull
- All handles are available in Countdown paint selections.
- The bar pull and rectangle pull are available in brushed nickel; the loop pull is available in bright metal. The L Pull is only available with painted options.
- The L Pull is only available with painted options.
- Please see Product Detail: Drawer and Handles Guide for handle examples.
- Symbols default with the Bar Pull but can be adjusted while applying your finishes.

Assembly Details

- Everything ships assembled except for desk shells, returns and bridges. Desk shells are knocked down and height adjustable table desks are partially knocked down.
- Adjustable shelves are adjustable in 32mm increments.
- Easy assembly using CAM and PIN construction allows ease of disassembly.
- Credenzas are modular and units ganged together in the field.
- Supporting hardware for seam connections are included with returns and bridge pieces.

Desk Shells

- Desk shell depths are 24" or 30" deep and widths run from 60" to 72" wide.
- Storage combinations should be specified as partial depth on any desk shell with a modesty (18" deep storage units will also fit under anything with a modesty).
- Desk shells and returns greater than 48" wide will require additional support.
- Leveling feet adjustable up to 1" for Calibrate floor storage.
- Please see Product Detail: Desk Shell Installation for desk shell construction examples.

Returns

- Return shell comes with full height height modesty panel, one full depth end panel and supporting hardware for seam connection.
- Returns can be specified in conjunction with AIS desk shells or specified as a stand alone piece if you have a storage component on the open ended side. Returns can be tied together with a Calibrate surface to storage bracket.
- Please see Product Detail for "L desk" unit examples.

Bridges

- Full modesty flush option only (for bridges without the modesty a standard worksurface can be specified).
- Supporting hardware for seam connections are included.

Calibrate Countdown Product Details

Height Adjustable Table Desks

- Available in 24" and 30" depths and widths run 42" to 72" wide.
- Height adjustable table desks can be specified with or without a modesty.
- Please see Product Detail: Height Adjustable Table Desk Range for information about the height adjustable table desk range.

Suspended Modesty

- Suspended modesties can be specified on the height adjustable table desks.
- Units are 12" high and are offered in 42" to 72" widths. Please follow the details on suspended modesty pricing page for what width modesty goes with what height adjustable table desk.

Storage

- AIS offers a wide variety of storage options and configurations that will work with your office needs. For more details please see below.
- Full depth units come with counterweights except for units with cut-outs.
- Filing offered is side-to-side as standard for pencil lateral and file laterals that are 24" deep as well as partial depth laterals (22" deep and 29" deep).
- Front to back filing is an option that can be purchased as an accessory and will ship separately.
- All storage symbols will show the bar pull, however in worksheet you can swap the handle out as an option to one of the other standard offerings.
- 24" deep pedestals have 20" deep x 12" wide box drawers. Please see Product Detail: Pedestal and Lateral Dimensions for example.
- 30" deep pedestals have 20" deep x 12" wide box drawers. Please see Product Detail: Pedestal and Lateral Dimensions for example.
- Pencil trays are included in the BBF and BF pedestals.

Overheads and Hutches

- Available as wall mounted.
- Tackboards are specified separately, they do not come with the hutches.
- Wall mounted items are secured using cleat mounts. Security screws need to run through the wall cleat to assure that overhead cannot dislodge.

Locks

- Box/Box/Files (BBF) pedestals will only lock the file and the middle box drawer, not the top box.
- File/File (FF) pedestal locks will secure both drawers.
- For all lateral files, wardrobe and storage units the locks will secure the drawers/door for the entire unit.
- Units will come with 2 keys per lock.
- Key-alike options are available per storage unit, additional lock cores may be ordered (for an additional charge) to key-alike an entire office.
- Items with 2 or more locks per unit will be keyed alike.

Lock Guide

Five lock options are offered:

- A - No lock required
- B - Black Lock
- C - Silver Lock
- D - No lock w/ black T-ring for keyed-alike or Digital Lock*
- E - No lock w/ silver T-ring for keyed alike or Digital Lock*

Lock cores and trim rings do not ship installed.

*Keyed alike lock cores must be ordered separately.

Tackboards

- Tackboards are designed to work with your stations need, with or without storage.
- Tackboard fabric direction runs horizontally for 60" to 72" wide pieces.
- Please see Product Detail for examples of tackboard fabric direction.

Edge Profile Details

Worksurfaces are 1 1/8" thick, thermally fused laminate with matching edgeband.

Drawer and Door Handles Guide

Four drawer and door handle options are offered:

Bar

Rectangular

Loop

L-Pull

Wood Grain Direction

Grain direction runs vertical for all pieces except for the back of 48" wide cabinets, in which case it runs horizontal. Calibrate wood grain is always vertical on storage fronts and doors. Grains run vertically on items under 60" wide. Items over 60" wide have the grain will run horizontally.

Calibrate Countdown Product Details

Tackboard Fabric Direction

Tackboard fabrics runs vertically on 24" - 48" width tackboards. Fabric runs horizontally on 54" - 96" width tackboards.
