Note: All AIS alta upholstery orders will have alta application as a standard feature. Alta enables virtually any textile to withstand the rigors of real life without leaving a mark. Alta improves repellency to oil and water based stains, is easy to clean and can enhance physical properties of the fibers. The technology is permanent and imperceptible to the eye and hand. To Clean: Blot with a dry towel. If residue remains, flush with warm water. Learn more at applied-textiles.com

21-27"	Add 30%	Add 35%	Add 40%
28-34"	Add 35%	Add 40%	Add 45%

For fabrics 53-54" wide, add 10%.

For fabrics 51-52" wide, add 15%.

For fabrics 48-49" wide, add 18%.

For fabrics under 48" wide, contact Customer Service.

*Additional yardage may be required in the testing and manufacturing of COMs with optional backing. Consult with Customer Service for additional yardage information.

C.O.M. Fabric Policy

- Please view all pre-approved COMs here:
<https://www.ais-inc.com/resources/fabrics-and-finishes/pre-approved-coms>
- It is mandatory that you work directly with your AIS Customer Service Representative for all COM related testing and orders. They will provide all necessary forms to you, as well as work with you with regard to sending in correct yardage and where to send it, along with necessary RA# or #s. Please note an RA must be submitted along with the fabric for testing, as well as an RA created for an actual order.
- Customer Service must be advised as to the width of the fabric rolls being supplied (54"W or 60"W). Customer Service must also be advised if the fabric has a backer.
- Yardage required for the job must be calculated by an AIS Customer Service Rep.
- Once AIS has approved the COM fabric, a fabric sample needs to be marked by the dealer with "Front", "Top", and "Bottom", to be sure fabric is applied correctly. The fabric sample then needs to be attached to a COM Fabric Dealer Form and forwarded to AIS Customer Service. [The COM Fabric Dealer Form may be downloaded or printed here.](#)
- Fabrics may be discontinued or obsolete without notice.
- Contact AIS Customer Service with any questions regarding fabric availability.
- All directional fabric will be railroaded.

C.O.M. Fabric Policy

- It is mandatory that you work directly with your AIS Customer Service Representative for all COM related testing and orders. They will provide all necessary forms to you, as well as work with you with regard to sending in correct yardage and where to send it, along with necessary RA# or #s. Please note an RA must be submitted along with the fabric for testing, as well as an RA created for an actual order.
- **Please Note:** A three to five yard sample is required for testing and approval for use on all monolithic panel systems. A one yard sample is required for testing and approval on Divi Insert Tiles, Matrix Tiles, flipper doors and tackboards. We may be able to test upholstery fabrics with a swatch, your Customer Service Representative will advise based on the fabric being tested; otherwise a 1 yard sample must be submitted for testing. Results take 48 - 72 hours.
- Customer Service must be advised as to the width of the fabric rolls being supplied (54"W or 60"W). Customer Service must also be advised if the fabric has a backer.
- Yardage required for the job must be calculated by an AIS Customer Service Rep.
- Once AIS has approved the COM fabric, a fabric sample needs to be marked by the dealer with "Front", "Top", and "Bottom", to be sure fabric is applied correctly. The fabric sample then needs to be attached to a COM Fabric Dealer Form and forwarded to AIS Customer Service. [The COM Fabric Dealer Form may be downloaded or printed here.](#)
- Fabrics may be discontinued or obsolete without notice.
- Contact AIS Customer Service with any questions regarding fabric availability.
- All directional fabric will be railroaded.

At AIS, we take great pride in offering a diverse selection of high-quality materials including but not limited to textiles, laminates, PET, mesh, etc. However, AIS cannot guarantee uniformity in dye lots across different production runs. As such, AIS is not liable for any variations in dye lots or color discrepancies in any of our products that may occur between orders. We encourage customers to review samples for color and texture matching prior to purchase. We are committed to providing exceptional products and are confident that our selection of textiles will meet your expectations for both aesthetic appeal and durability.

Custom Paints

Special Paint Match Process & Ordering Instructions

To initiate a special paint match, please provide **three physical match samples** to your Customer Service Representative (CSR). These samples will be sent to our paint suppliers for evaluation and matching.

Match Process & Fees:

- A **non-refundable \$450 net match fee** is required to begin the process.
- Once viable matches are developed (pending vendor capability), we'll send the samples to the dealer for final approval.

Pricing:

- Pricing begins at the **Grade C** paint tier.
- If the custom color incurs additional costs beyond Grade C pricing, we will advise of any upcharges before order placement.
- A **minimum order of \$100,000 List** is required for special paint orders.
- The **\$450 match fee will be waived** if the order is **\$150,000 List or more** (and placed using the approved color).

Ordering Instructions (after color approval):

1. Dealer submits the **Purchase Order (PO)** and **Bill of Materials (BOM)** for the product requiring special paint.
2. The PO must clearly state:
"SPECIAL PAINT REQUIRED ON THIS ORDER"
— either in the header or special instructions section.
3. When selecting finishes:
— Choose the **Grade C Paint option**.
— **Do not select a final paint color**.
— **Leave the paint code blank** and use the skip option.

TEMPERED GLASS OPTIONS

L Series Storage Details

Handle Options

- L Series Storage comes with rectangle pulls in brushed nickel.
- Alternate Style Handles are available and field replaceable in the following styles (see Storage Accessories):
 1. Bar Pull
 2. L Pull
 3. Loop Pull
- All L Series handles have a 5" hole spread.

Assembly Details

- Box drawers and file drawers have full depth, smooth riding ball bearing suspensions.
- All pedestals are lockable with two supplied keys.
- Lock cores are removable with lock removal keys.
- Master keys are also available.
- Extra lock core sets are available for keying pedestals alike.
- Pedestals come equipped for front to back letter-sized filing.
- Box-box-file pedestals include one box drawer pencil tray.
- Adjustable height is 27 1/2" to 29".
- Pedestals measure 15" wide.
- For functional loads see Universal Storage Product Details.
- Pencil tray included with L Series pedestals (with exception of 12" wide pedestals).

Locks

- Locks and trim bezel come in Silver only.
- Replacement keys, key alike sets, master keys and replacement keys are available (see Storage Accessories).
- Keyed alike lock cores must be installed in the field.
- Keys and lock cores are available in #'s 226 through 425.
- A core removal key is needed to remove an existing core from the lock housing in order to replace with a new core.

L Series Storage Details

Filing Capacity

Laminate Storage Details

Assembly Details

- Adjustable shelves are adjustable in 32mm increments.
- Easy assembly using CAM and PIN construction allows ease of disassembly.

Locks

- Box/Box/Files (BBF) pedestals will only lock the file and the middle box drawer, not the top box.
- File/File (FF) pedestal locks will secure both drawers.
- For all lateral files, wardrobe and storage units the locks will secure the drawers/door for the entire unit.
- All drawers lock on 3, 4 and 5 drawer laterals.
- Units will come with 2 keys per lock.
- Key-alike options are available per storage unit, additional lock cores may be ordered (for an additional charge) to key-alike an entire office.
- Items with 2 or more locks per unit will be keyed alike.

Lock Guide

Five lock options are offered:

- A - No lock required
- B - Black Lock
- C - Silver Lock
- D - No lock w/ black T-ring for keyed-alike or Digital Lock*
- E - No lock w/ silver T-ring for keyed alike or Digital Lock*

Lock cores and trim rings do not ship installed.

*Keyed alike lock cores must be ordered separately.

Laminate Storage Details

Handle Options

- Five handle options are available:
 1. Bar Pull*
 2. Loop Pull*
 3. Rectangular Pull*
 4. L Pull*
 5. Slim Pull**
- All handles are available in any graded paint selection.
- The bar pull and loop pull are available in brushed nickel; the rectangular pull is available in Bright Silver. The Slim Pull and L Pull are only available with painted options.
- Laminate hinged doors may be configured with touch-to-open mechanism and no handles (not applicable to framed glass doors).
- Sliding doors include an option of no handle.
- Please see Product Detail: Drawer and Handles Guide for handle examples.

*Symbols default with the Bar Pull but can be adjusted while applying your finishes.

The handle hole spread for Bar, Loop, Rectangular and L Pulls is 5" if you wish to supply your own handles.

**The handle hole spread for the Slim Pull is specific to the drawer front size.

Door Handles Guide

Five handle options are available:

- Bar
- Rectangular
- Loop
- L Pull
- Touch to Open**
- No Handle***

*The Slim Pull option incurs an upcharge of \$75 list per unit.

**Available on laminate hinged doors only; not available on framed glass doors or sliding doors. Incurs an upcharge of \$50 per unit.

***Available on sliding doors.

Support Product Details

Product Detail 1

Full Laminate Support Panels

Full Laminate Support Panels are used to create freestanding worksurface applications such as desk shells, returns, corner bases, tables as well as private office floor support. Each full panel is 27 5/8" tall with a 1 1/2" glide. When used in conjunction with standard AIS worksurfaces, heights to the top of the worksurface will range from 28 5/8" to 29 1/2" tall. The worksurface mounting plates are attached to the top of the panels as shown, thus leaving the brackets hidden from view and keeping vertical surface laminates free of holes for reversing and re-configuration. Each FLSP includes 2 - 3 worksurface mounting plates, 2 - 3 glides, one worksurface splice plate, and the appropriate quantity of pins, cams, and screws. All hardware is installed when components are field installed, based on required orientation of FLSPs. Note: FLSPs A - D are nominal width less 1/8" (i.e.: 24 - 1/8 = 23 7/8). FLSP E is nominal less 2 1/4" to accommodate the thickness of the two panels on either side (i.e.: 72 - 2 1/4 = 69 3/4). FLSP F is nominal less 1 3/16" to accommodate the thickness of a single panel on one side (i.e.: 12 - 1 3/16 = 10 13/16).

FLSPs are connected with a series of pins and lock cams providing a rigid yet simple means of connection. Each type of FLSP has a different function and configuration of male pins and female cams. The six available full laminate support panels (FLSP) are reversible by turning upside down, thus simplifying specification and reconfiguration. Each FLSP is available in widths from 12" to 96" in 6" increments, creating unlimited combinations of worksurface support elements. For this reason, FLSPs are ordered separately. The following pages are a guide to FLSP applications.

A simple way to understand the applications for FLSPs are to consider their use in combinations like those listed below. These simple configurations will be used over and over in freestanding furniture applications. Each configuration can have FLSPs of varying widths and depths to accommodate almost any worksurface size.

Desk Base with Flush Modesty

Desk Base with Flush Modesty consist of two FLSP A's and one FLSP E. The FLSP A's can be any size from 12" to 96", with either matching lengths or different lengths.

Desk Base with Recessed Modesty

Desk Base with Recessed Modesty consists of two FLSP B's and one FLSP E. The FLSP B's can be any size from 12" to 96", with either matching lengths or different lengths.

Corner Base with Flush Modesties

Corner Base with Flush Modesties consists of (Left to right, clockwise) one FLSP F, one FLSP D, one FLSP E, and one FLSP A. Each FLSP can be any desired length.

T-Base

T-Base consists of one FLSP C in the back and one FLSP F centered in the front. Each FLSP can be any desired length.

Product Detail 2 Full Laminate Support Panel Configurations

Configuration Example 1

This freestanding corner unit consists of two desk bases, one corner base, and three worksurfaces.

- 1. FLSP E 48" Wide
- 2. FLSP A 12" Wide
- 3. FLSP D 48" Wide
- 4. FLSP A 24" Wide
- 5. FLSP F 12" Wide

Configuration Example 2

This freestanding U-shaped unit consists of one desk base, two t-bases, two combination legs and three worksurfaces.

- 1. FLSP E 72" Wide
- 2. FLSP A 24" Wide
- 3. FLSP C 48" Wide
- 4. FLSP F 12" Wide
- 5. FLSP C 30" Wide
- 6. Combination Leg

Configuration Example 3

- 1. FLSP E 36" Wide
- 2. FLSP D 48" Wide
- 3. FLSP A 12" Wide
- 4. FLSP F 12" Wide
- 5. FLSP A 24" Wide
- 6. FLSP E 72" Wide
- 7. FLSP B 30" Wide
- 8. FLSP E 84" Wide

Notes

- 3-stage Day-to-Day Height Adjustable Table Bases allow for quick and easy adjustment of worksurface height.
- Available in black, satin white or metallic silver.
- Bases do not include worksurfaces.
- Adjusts from 21.54"H to 47.80"H (without surface).
- Tops should accommodate a 1 in (25mm) pinch clearance on all sides.
- Maximum worktop overhead allowed is 6" on one side.
- Weight capacity is 250lbs (incl. worksurface) for two leg and 350lbs (incl. worksurface) for three leg.
- Base width may be adjusted from 42"W to 72"W.
- 4 memory presets.
- Select tops to avoid cable shearing, prevent pinch points and collisions. Assure attached screens or monitor arms do not create unstable conditions.
- Local compliances should meet local requirements.
- **Important:** Height Adjustable Bases are **UL Recognized** components and are labeled with the **UR** mark. However, bases are **not** UL or ETL **Listed** unless purchased as a complete table using a complete table model number. See Height Adjustable Table Section for tables that are UL or ETL Listed. Many municipalities require tables to be UL or ETL Listed.

12	96	W-CT1296	531	+29

Specify

- Laminate Selection
- Color Selection for 2mm Edge

Notes

- Shelf Surfaces are 1 1/16" thick. 2 mm edge banding (approximately 3/32") is made of rigid, dent-resistant PVC.

Worksurface Risers, U-Channels and Flat Plates

WORKSURFACE RISERS

Style	H	Model Number	List	Grade C Paint	Use
2.5 x 2.5	4	WFS-WSR25254	207	+5	Mixed Surface Height
2.5 x 2.5	6	WFS-WSR25256	214	+5	Surface to Surface Connection
2.5 x 2.5	7	WFS-WSR25257	232	+5	Surface to Surface Connection

Specify

- Paint Selection

Notes

- Worksurface Risers are a painted, extruded aluminum with a steel top plate.
- Available in 2.5" square.
- Risers may be ordered in 4", 6" or 7" heights and work in conjunction with floor storage caseloads and worksurfaces to create tiered levels.
- Bottom of riser is secured using field drilled holes in the lower unit with the supplied screws.

U-CHANNELS

Model Number	List
WPS-VC48	151
WPS-VC60	187
WPS-VC72	223

Specify

Notes

- U-Channel mounts to underside of longer worksurfaces to provide bracing where center support cantilever is not possible.
- All worksurface support components fasten directly to worksurfaces with screws.

FLAT PLATES

Model Number	List
WPS-FP	37

Specify

Notes

- Flat Plate is used to splice two worksurfaces together at front edge. 3.5" x 1.5" plate has four holes per side for superior adaptability and rigidity.
- Available in black only.
