DESKTOP ORGANIZER & SUSPENDED CADDY

Keep your workspace tidy with organizers that easily store your personal items while keeping them within reach. The Desktop Organizer sits on top of your worksurface and can go with you if you change your work location thanks to its soft-grip handles. The organizer includes a bookend and a pullout drawer with dividers to contain small items. The Suspended Caddy is designed to be attached under a worktop so frequently used items are at your fingertips when you need them. Plus, the Caddy can replace a pedestal to save space in small areas.

Desktop Organizer sits easily on all worktops.

The Suspended Caddy can replace pedestals in small spaces.

Suspended Caddy in application with PowerBench.
