

# EMPOWERING EDUCATION

**Create educational spaces that engage students and teachers with more interactive learning, flexibility and technology support.**

Holistic learning environments are adaptable and interactive. A wide variety of AIS products, including tables, seating, lounge, and caseworks empower education by providing thoughtfully designed environments that can adapt to the varying needs within education.

**AIS**

# LEARNING ENVIRONMENTS

**Traditional classrooms** have evolved for flexibility and engagement. Mobile tables and chairs make it easy to adapt the layout for different activities, while soft seating fosters collaboration, inclusion, and creative learning.

**Interactive classrooms** are designed to keep students engaged. Tables that allow for dynamic discussions, collaborative tables to encourage teamwork, and soft seating for informal discussions or quiet moments.

**Common spaces** bring a warm, welcoming environment to schools. Used in education settings, these areas often feature lounge furniture – creating inviting places where students can gather and feel a sense of belonging.

**Media Centers** support every kind of learner. From quiet zones with workstations and private lounge seating for focused study to group areas with collaborative tables and soft seating for connection, these modern spaces create the ideal setting for academic achievement.

**Learning hubs** bring students together in spaces that support diverse learning styles. With soft seating, mobile ottomans, and laptop tables, these environments encourage connection, conversation, and continuous learning.

**Café and respite spaces** offer moments of pause for teachers and students alike. Booths with wipeable upholstery provide a comfortable spot for students, while smaller areas give educators a quiet space to recharge.

# WE CREATE SMART SPACES
