# POWERBEAM: THE POWER TO WORK THE WAY YOU WANT

Ultra-efficient PowerBeam adds impressive capabilities to height-adjustable or fixed tables. Available in multiple lengths, angles, and heights, to optimize space within your floorplate, PowerBeams ties it all together, putting power just where it's needed.

An agile, user-friendly set of options lets you tailor the details exactly to your needs. From size and materials to support elements, PowerBeam can be whatever you want it to be.

Choose power access on one or both sides.

Bring power beyond the workstation to an impromptu meeting space complete with whiteboards.

Connect power from floor, ceiling, or wall to every workstation.

Two inches of leveling makes it simple to adjust, even across long runs.

**Connections:** 90° and 120°  
**Profile:** 2.5 inches wide by 8 inches tall

**Height:** Choose 21, 25, or 29 inch  
**Length:** 36 to 96 inch runs 6 inch increments

**Support:** PowerBeam can be supported by disc-base, post leg, T-base, gallery panel or storage
