

SEE WHAT'S POSSIBLE with AIS

NeoCon 2023

June 12-14
The Merchandise Mart
Floor 10 | Showroom 1086
ais-inc.com

This year we're celebrating the many possibilities you have when you partner with AIS: quality solutions to fit your entire organization, competitive lead times to meet your schedule, and price points that fit your budget.

Take a sneak peek at what's new at AIS. You won't believe all that's possible now!

Encounter™ A new name to represent proven products. Encounter encompasses both PowerBeam and PowerBench through a shared power platform that offers ultra-efficient, agile power with maximum flexibility that boosts overall productivity.

Encounter PowerBeam puts power just where it's needed. Its powered spine can be freestanding or storage supported and configured in multiple ways. Your power will always be within reach — no matter what changes may come.

Encounter PowerBench takes the power platform of PowerBeam and adds ergonomics into its design with integrated height adjustable worksurfaces. Health and overall comfort are optimized throughout the day whether sitting, standing, or perching. Choose from two base options: **Encounter with Laminate Base** for a more permanent, upscale feel or **NEW Encounter with H-Leg** with a structural metal leg for a lighter aesthetic. The H-Leg can be painted in any of our paint colors to create a subdued or vibrant overall look.

Chelsea™ Task Seating With an eye-catching back design, intuitive ergonomic adjustments, and simple assembly, this chair stands out against the competition. Head back to the seating area to experience the superior comfort of Chelsea.

NEW! Encounter PowerBench with H-Leg base

NEW! Chelsea Task Chair

Plus — more from the new Mixers Collection™, and Calibrate® Caseloads enhancements you're going to love!

We can't wait to see you!
