Roya Installation Instructions

**IMPORTANT! KEEP FOR FUTURE REFERENCE.
READ CAREFULLY**

ATTENTION: Keep small parts, packaging bags and films away from infants and children due to choking hazard and possible ingestion!

To avoid choking hazard, remove plastic packaging before use. Dispose of and/or keep packaging away from children.

GENERAL SAFETY WARNINGS:

- Failure to comply with the general safety warnings, product modifications, or use of non-original parts will void any warranty or claim for compensation.
- Improper assembly of the chair relieves the manufacturer of all liability and warranty for the product and any personal injury or property damage that may occur.
- Do not use the chair if a structural component is missing or damaged, affecting its stability.
- Observe the load specifications of the instructions.
- Do not use the chair if it has visible damage.
- Regularly check all connections, screws, and other fasteners and restore proper tightness if necessary.
- Replace missing or damaged parts immediately.
- Product life is affected by the size/weight of the user, use of the product, use environment, and care and maintenance of the product.

Roya Installation Instructions

Roya Installation Instructions

READ THE ASSEMBLY INSTRUCTIONS CAREFULLY BEFORE STARTING.

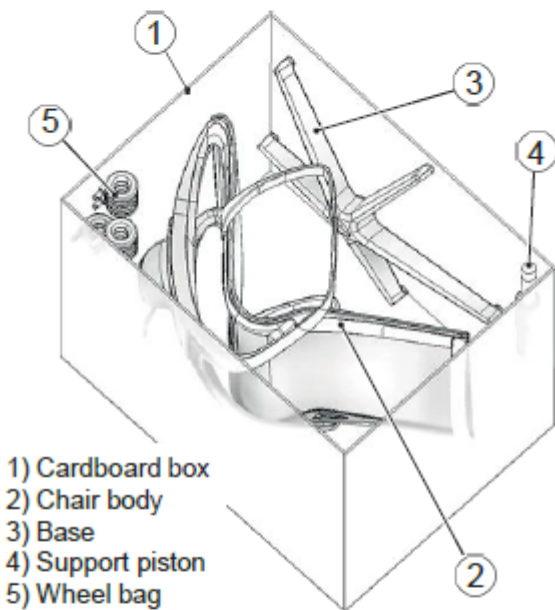

Use appropriate protective gloves when assembling the chair.

Please follow the assembly instructions carefully and keep them for future reference.

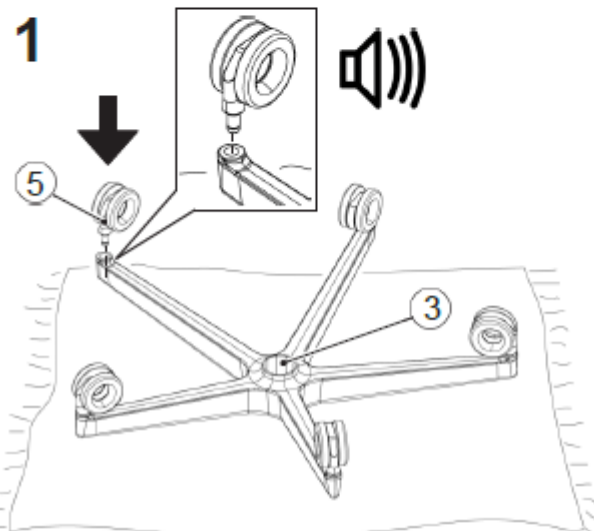

Assembly should only be carried out by adult personnel.
The product should be used only after complete assembly.

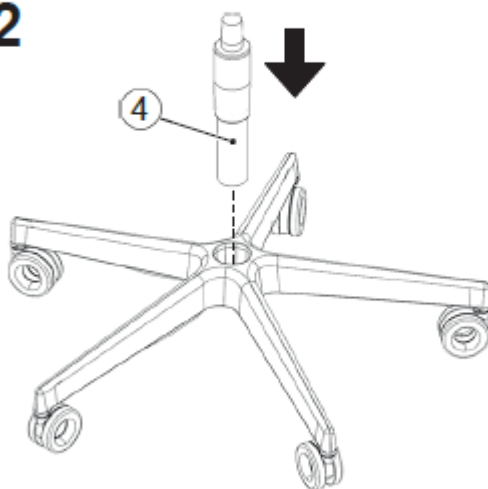

- 1) Cardboard box
- 2) Chair body
- 3) Base
- 4) Support piston
- 5) Wheel bag

1

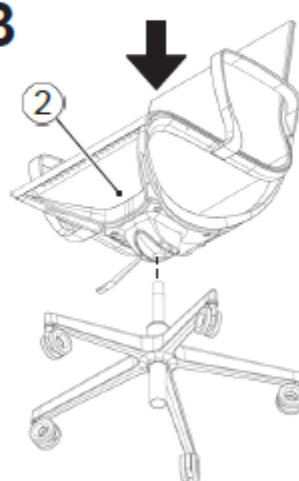

Insert the 5 wheels into the appropriate slots in the base.
Push them all the way in until you hear the "CLICK" of the correct engagement in place.

2

Insert the support piston into the base seat, paying attention to the direction.

3

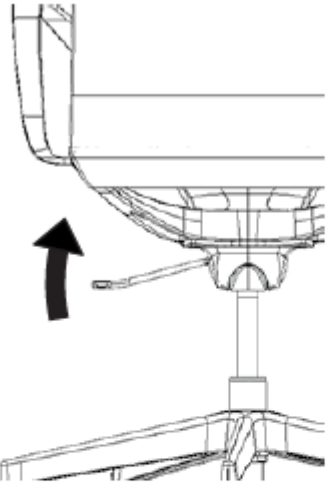

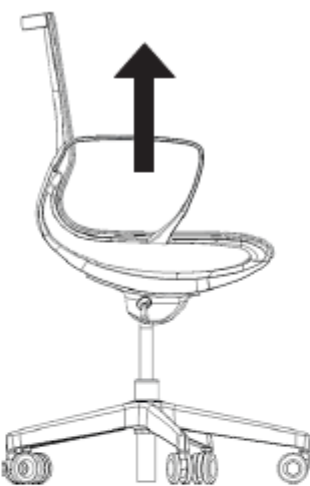

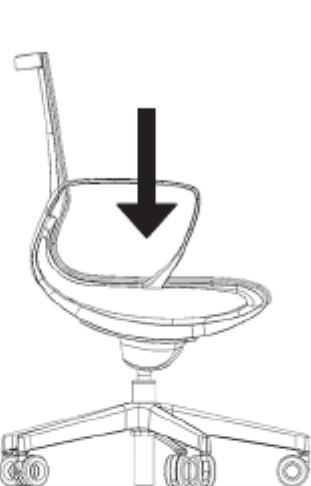

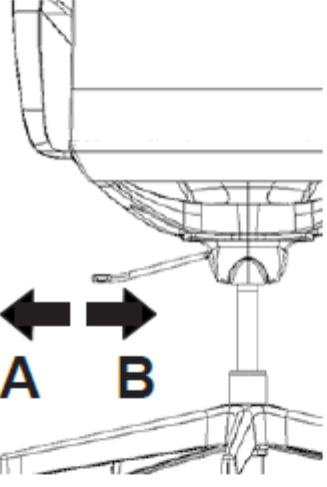

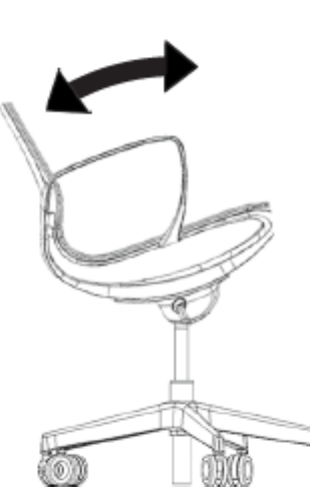

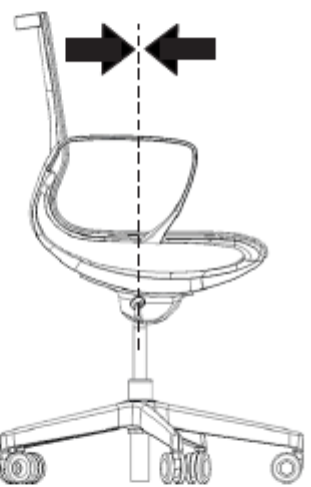

Insert the chair body into the support piston.

4

Sit carefully on the chair so as to complete the coupling of the parts.

Roya Installation Instructions

 Pull the lever upwards to operate the chair lifting piston.	 Lift the weight slightly off the seat so that the chair can be raised.	 Impress all the weight on the seat so that the chair can be lowered.
 Pull (A) or push (B) the lever to operate or lock the tilting.	 Pull the lever outwards (A) to unlock and allow the chair to tilt.	 Push the lever inwards (B) to lock the tilting of the chair. Locking possible only in vertical position.

MAINTENANCE AND CLEANING	
Periodically check the chair for damage to the structure, wheels and upholstery fabric.	As needed or at least once a month
Check the tightness of the 4 fixing screws on the bottom of the seat.	As needed or at least once a year
Clean frame and seat with a damp rag and non-aggressive products.	At will

Dispose of the packaging and the chair at the end of its life according to regulations in the country of use.
