| Industry: | Financial | Number of stations: | 300 |
| Location: | Cottage Grove, WI | Project Size: | 152,000 sq ft |

Company Overview & Project Needs

Summit Credit Union has been serving Wisconsin for over 75 years and is one of the largest credit unions in the state. The company is rapidly growing with 38 locations across the state. This growth led Summit Credit Union to move from 6 different locations into one corporate headquarters in 2019.

The client's primary driver was keeping costs low, while still creating an innovative, dynamic and colorful space for employees with a variety of conference room styles that cultivated collaboration and cross-functionality across the organization. Individual spaces needed to be ergonomically enhanced to ensure comfort throughout the day.

The Results

Furniture selections were made by a project team who reviewed the overall style, color, and functionality of pieces.

AIS's Divi Open Plan System was chosen for the employee individual workstations. The panels were coupled with Calibrate Pull-out storage and screens to create additional privacy. Conference rooms used a variety of Day-to-Day and Calibrate tables. These were complemented with Sulli and Triad seating. Lastly, AIS was chosen because of the overall balance of functionality, quality and affordability of its products.

AIS Solutions

- Divi Panel System
- Day-to-Day Tables
- Calibrate Series Casgoods
- Calibrate Series Conferencing
- Devens Task Seating
- Triad Stack Seating and Stools

"Because there are a variety of conference room set-ups, along with breakout spaces with more comfortable/lounge furniture, our employees have engaged in ways they have not before. The AIS team understood our vision for the various spaces and were committed to helping us realize it."

— Heidi Duss, Manager-D&I, Wellness & Community Engagement
